## "Uncertainty"

Is the Law in Human Affairs!

If the suitor were CERTAIN of the success of his cause, COURTSHIP WOULD BE A DULL AFFAIR.

If it were always CERTAIN that a given result would follow a given cause, human affairs would lack ZEST!

Happily, CERTAINTY is only a word—while UNCERTAINTY is a LAW—a condition leavening all human effort.

That you will reach your appointed destination on your next street-car ride is not a CERTAINTY. It is probable; it is likely; but the chance is always there that something will prevent.

That a certain sort of advertisement of a store will produce a logical and expected result is not always CERTAIN. It is probable, and likely. But some combination of circumstances may intervene to prevent the complete result hoped for.

The "element of chance" which enters into newspaper advertising is a small one, it is true, but it is there, as it is everywhere else in life; and those who "LOOK FOR CERTAINTY" will fail, sometimes, to find it.

The Merchant, Who Advertises in a Newspaper Knows that the "Law of Uncertainty" Operates in His Favor Ninety and Nine Times Where It Penalizes Him Once.

Average net sworn circulation of The Evening Times during February was 45,256.
